IMAGES

PROF. DAVID ROSSITER

AFTER THIS PRESENTATION

- You'll be able to handle images

ELEMENTS & ATTRIBUTES WE WILL LOOK AT

`<img>`   src attribute

width attribute

height attribute

IMAGES

Use `img` to bring an image into the web page
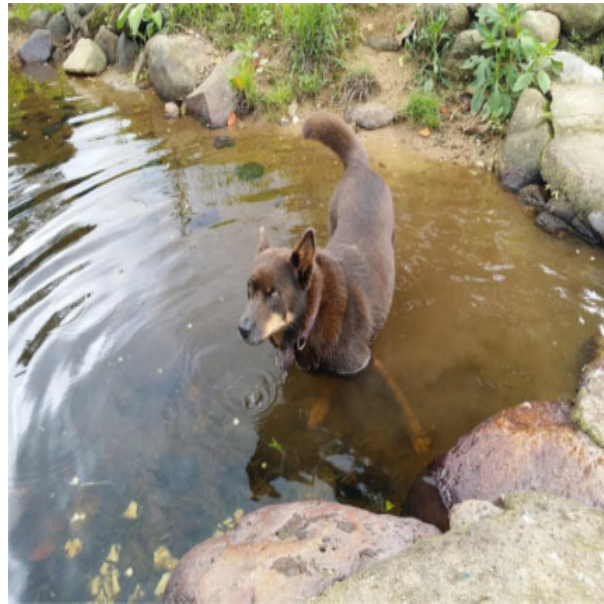

```
<img src="stella_photo.jpg">
```

CONTROLLING THE EXACT SIZE

Add `width="`**`number`**`"` and `height="`**`number`**`"`

```
<img src="stella_photo.jpg" width="300" height="300">
```

CONTROLLING SIZE WITH CORRECT RATIO

Use only one of `width` or `height`

```
<img src="stella_photo.jpg" width="300">
```

CONTROLLING THE RELATIVE SIZE

Add `width="`**`number%`**`"` and `height="`**`number%`**`"`

```
<img src="stella_photo.jpg" width="50%">
```

The percentage value is relative to the thing which contains the image, which we call the *parent*
